

Healthy Greenville Grant Initiatives

Fiscal Year 2021 Grant Cycles RFP (Request for Proposals) Released

Healthy Greenville – January 15

Healthy Greenville, Too! – January 11

Purpose and Strategy of **Healthy Greenville**

Background

- Prisma Health-Upstate (formerly Greenville Health System) has had a longstanding commitment to the health and wellbeing of the communities it serves.
- In early 2016, this commitment deepened by a provision in its lease with the Greenville Health Authority (GHA) that it will provide \$4 million each year to GHA which will administer a grants program to support health-related care, health research and health education initiatives benefiting the residents of Greenville County.
- GHA appointed a Community Initiatives Task Force in September 2016 to develop a strategic plan and process for administration of the grants. Task force members contributed their knowledge to the process of developing a grantmaking initiative that would serve the health needs of Greenville County.

Background cont....

- The task force spent more than 450 collective man hours to develop processes and procedures to ensure that the grantmaking would be evidence-based and aligned with the needs of Greenville County. The task force completed its work in April 2017 by delivering comprehensive recommendations to submit to the Grants Committee of the GHA Board of Trustees to continue the work of implementing the grantmaking initiative.
- The GHA Board approved the initiative in April of 2017.
- Through FY 2020, GHA has committed more than \$20 million to improve the health of Greenville County.

Purpose

Vision

Make Greenville County the healthiest county in America.

Mission

Fund health-related care, health research, and health education that improves the health of Greenville County residents.

Strategy

- Invest \$4 million each year into organizations that help us achieve our Vision
- We use the following data to determine grant awards and success:
 - Most recent Community Health Needs Assessment (CHNA)
 - *Access to Healthcare*
 - *Social Determinants of Health*
 - *Mental/Behavioral Health*
 - *Healthy Eating and Exercise*
 - Robert Wood Johnson Foundation's County Health Rankings
 - www.countyhealthrankings.org
